

2025 MORE MONEY IN YOUR POCKET.

We keep our promises.

LUC FRIEDEN, PRIME MINISTER AND PARTY PRESIDENT

Last year, the new CSV-DP government implemented a range of promises. We have:

- Strengthened **purchasing** power through tax relief for everyone.
- Supported young people with **financial aid for first-time buyers** and young workers starting their careers.
- **Boosted housing construction** with tax measures and simplified procedures to build more and faster.

- **Relaunched** the economy through a **more attractive framework**.
- Enhanced security with **more police officers and local police units**.
- Fought poverty through targeted increases in **social benefits and simplified procedures**.

In 2025, we will continue to work in your interest. I wish you all the best for the new year from the bottom of my heart!

Luc Frieden

THE 'ENTLAASCHTUNGS-PAK'.

The tax table will be adjusted once again.

By an additional 2.5 index brackets as of January 1, 2025, following an adjustment of 4 index brackets on January 1, 2024. This means that, in total, 6.5 out of 8 index brackets have been balanced—a significant relief for everyone.

Single parents, widows, and people over 64 in tax class 1a will receive additional relief.

The amount of the tax-exempt tranche will increase, and the calculation formula will be adjusted.

For single parents, the maximum tax credit will also increase by nearly €1,000. In short: a single-parent family with a gross income of up to €52,400 will pay no taxes.

Support for homeownership. For the purchase of an existing home, interest on loans can be deducted:

- Fully for the tax years 2024 and 2025.
- For the next four years, up to €4,000 per person in the household.
- For the following five years, up to €3,000 per person in the household.
- Thereafter, up to €2,000 per person in the household per year.

The tax deduction for children, not living in the taxpayer's household will increase by approximately €1,000.

Historical adjustments to the minimum wage.

The unskilled minimum wage will be increased and, for the first time, will be tax-free in all tax classes.

”

The 'Entlaaschtungs-Pak' is an investment in people and businesses. An investment in the cohesion of the country. An investment in a future for everyone.

“

MORE ALLOWANCES.

The energy allowance is tripled for current beneficiaries:

- A one-person household can receive up to 600 euros.
- A two-person household can receive up to 750 euros.
- A household with four people can receive up to 1.050 euros.

The cost-of-living allowance is increased by 10 percent: Those entitled to it will automatically receive the payment without having to apply for it. This also applies to the energy allowance.

Retirement homes will have part of their energy costs compensated : This ensures that prices in retirement homes remain stable.

A strong economy cannot function without a strong social state. As the CSV parliamentary group, we welcome this relief for people's wallets.
